Quest® Toad® for Oracle Subscription

Essential Functionality	Toad for Oracle Base Subscription	Toad for Oracle Pro Subscription	Toad for Oracle Pro DB Admin Subscription	Toad for Oracle Xpert Plus Subscription
Single user subscription billing (12-month term)	✓	✓	✓	✓
Security tested following SSDLC lifecycle	✓	✓	✓	✓
SQL & PL/SQL Editor with debugging	✓	✓	✓	✓
Schema browser	✓	✓	✓	✓
Graphical query builder	✓	✓	✓	✓
PL/SQL code profiler	✓	✓	✓	✓
Task automation	✓	✓	✓	✓
utPLSQL unit testing	✓	✓	✓	✓
Schema and database compare report	✓	✓	✓	✓
Compare table data with sync	✓	✓	✓	✓
Test data generation		✓	✓	✓
Data sub-setting and masking		✓	✓	✓
Code quality analysis		✓	✓	✓
Report on use of sensitive data (Sensitive Data Awareness)		✓	✓	✓
Personal and sensitive data scanning and protection (Sensitive Data Protection Module)			✓	✓
Database browser and monitor			✓	✓
Schema and database compare with sync			✓	✓
Compare multiple schemas			✓	✓
Database health check			✓	✓
Trace file browser			✓	✓
LogMiner (transaction recovery)			✓	✓
Scan and identify problematic SQL directly from database objects, files and source code				✓
Live and batch SQL optimization using patented automated rewrite technology				✓
Implement indexing changes based on continuous database workload assessment				✓
Analyze impact of changes to database environment				✓

Essential Functionality	Toad for Oracle Dev Plus Subscription	Toad for Oracle DBA Plus Subscription	Toad for Oracle DBA RAC Plus Subscription	Toad for Oracle DBA Exadata RAC Plus Subscription
Toad for Oracle Xpert Plus Features – See page 1 for details	✓	✓	✓	✓
Advanced PL/SQL unit testing	✓	✓	✓	✓
Automate PL/SQL unit test creation and execution and store in repository for future regression testing	✓	✓	✓	✓
Performance and benchmark testing (100 virtual users)	✓	✓	✓	✓
Replay production or synthetic activity in test or development environments	✓	✓	✓	✓
Perform load tests on SQL scripts, PL/SQL, T-SQL code and stored procedures under different concurrent user configurations	✓	✓	✓	✓
Simulate real database application workloads using out-of-the-box industry-standard benchmarks	✓	✓	✓	✓
Determine system throughput and find database breaking points	✓	✓	✓	✓
Performance and benchmark testing (500 virtual users)		✓	✓	✓
Data modeling		✓	✓	✓
Performance and predictive diagnostics		✓	✓	✓
Identify and diagnose performance issues		✓	✓	✓
Automatically set baselines, thresholds and display alerts		✓	✓	✓
Toad for Oracle connectivity to Oracle RAC			✓	✓
Toad for Oracle connectivity to Oracle Exadata				✓
Performance and predictive diagnostics on Oracle RAC databases			✓	✓
Detect and diagnose bottlenecks in Oracle RAC environments at the node, cluster and the interconnect			✓	✓
